Mechanisms: Area Majority/Influence, Auction/Bidding, Grid Movement, Modular Board, Variable Player Powers, Card Play Conflict Resolution, Deck Building, Dice Rolling, Hand Management, Voting, Trading

Type: 3X strategy board game

Description:

In the board game "Fantasy Legions", each player tries to create a powerful empire by uniting independent cities, villages and metropolises through diplomacy or force. There are eight different fantastic races in the game and each of them will interact with the player. Only by convincing them to your point and uniting them under one banner, there is a chance to achieve success and take over the entire land. Win battles, recruit brave commanders, develop the economy, build powerful fortifications, trade, contribute politically, amass wealth, choose your goals wisely and, above all, negotiate skillfully.

Components:

106 stands/minatures of legions, 6/20 stands/minatures of heroes, 90 gold tokens in 3 nominals, 30 experience cube, 7 farms, 7 strongholds, 120 bases (under stands/minatures), 36 activation tokens, 24 commanders tokens, 18 map tiles (each has 4 hexes), 10 diplomatic dices, 2 time dices, voting track, 6 players boards, 20 heroes cards, 40 politic cards, 80 objective cards, 63 commanders cards, 72 diplomatic cards, 6 politic tokens, 72 flags/mepels, 10 k8 dices.

Product advantages:

- Plenty of playing "over the board"
- Fast, interesting and controllable fight mechanic (usually 2-3 minutes)
- Feeling of imperial control
- You can't lose, your hero always can use diplomatic skills and add a new city under his control
- 20 minutes of rules explanation
- Relatively short downtime
- Many areas of managment under your control: trade, diplomation, commanders, recrutation, politic, economy, objectives
- Open game, many options
- High replayability
- Many (20) different heroes
- Differences between legions
- You don't manage only one faction, you must collaborate with every faction. The key to success is combo of their abilities.
